Who can be tested for COVID-19 at HealthPoint?

COVID-19 testing is available only for established HealthPoint patients who have current
doctor’s order to test (i.e. must be pre-screened by HealthPoint’s Call Center or clinic and sent
to test).

Anyone that is not an established HealthPoint patient and/or does not have a valid order to test
will not be able to get tested.

When is the testing site open?
The HealthPoint Administration testing site is open from 9am to 4pm, Monday through Friday.

What to bring with you to the testing site:
  o A valid picture ID, like a driver’s license.
  o You do NOT need to have a physical copy of doctor’s order for the test. It will be
    available electronically at the testing site as part of your record. It is entered by your
    pre-screener over the phone as soon as determination is made that you need to get
    tested.
What to expect at the testing site:
  o Drive up to the tent in the designated lane
  o Be prepared to confirm that:
    o You are a current HealthPoint patient
    o Have an existing order to test that was initiated for you at the time of pre-screening
  o Show picture ID
  o Your test will be administered to you while you remain in the car.
  o Receive a post-test instruction sheet explaining the next steps including how and when results will be sent.

Where is the testing site located?
The testing site is located in the parking lot behind HealthPoint’s Administration building located at 955 Powell Ave SW in Renton, WA. Look for the red star on the map below:
